

Chapter 8.B.

NATIONAL STANDARDS FOR THE PHYSICAL INSPECTION OF REAL ESTATE AND RENT REASONABLENESS DETERMINATIONS

[24 CFR 5 Subpart G and Notice PIH 2024-26]

PART III: RENT REASONABLENESS [24 CFR 982.507]

8-III.A. OVERVIEW

Except in the case of certain LIHTC- and HOME-assisted units, no HAP contract can be approved until the PHA has determined that the rent for the unit is reasonable. The purpose of the rent reasonableness test is to ensure that a fair rent is paid for each unit rented under the HCV program.

HUD regulations define a reasonable rent as one that does not exceed the rent charged for comparable, unassisted units in the same market area. HUD also requires that owners not charge more for assisted units than for comparable units on the premises. This part explains the method used to determine whether a unit's rent is reasonable.

PHA-Owned Units [24 CFR 982.352(b)]

In cases where an HCV family is receiving assistance in a PHA-owned unit, the PHA must obtain the services of an independent entity to determine rent reasonableness in accordance with program requirements, and to assist the family in negotiating the contract rent when the family requests assistance. A PHA-owned unit is defined as a unit that is owned by the PHA that administers the assistance under the consolidated ACC (including a unit owned by an entity substantially controlled by the PHA). The independent agency must communicate the results of the rent reasonableness determination to the family and the PHA. The independent agency must be approved by HUD and may be the unit of general local government for the PHA jurisdiction (unless the PHA is itself the unit of general local government or an agency of such government).

8-III.B. WHEN RENT REASONABLENESS DETERMINATIONS ARE REQUIRED

Owner-Initiated Rent Determinations

The PHA must make a rent reasonableness determination at initial occupancy and whenever the owner requests a rent adjustment.

The owner and family first negotiate the rent for a unit. The PHA (or independent agency in the case of PHA-owned units) will assist the family with the negotiations upon request. At initial occupancy the PHA must determine whether the proposed rent is reasonable before a HAP Contract is signed. The owner must not change the rent during the initial lease term. Subsequent requests for rent adjustments must be consistent with the lease between the owner and the family. Rent increases will not be approved unless any failed items identified by the most recent inspection have been corrected.

PHA Policy

After the initial occupancy period, the owner may request a rent adjustment in accordance with the owner's lease. For rent increase requests after initial lease-up, the PHA may request owners to provide information about the rents charged for other units on the premises, if the premises include more than 4 units. In evaluating the proposed rents in comparison to other units on the premises the PHA will consider unit size and length of tenancy in the other units.

The PHA will determine whether the requested increase is reasonable within 10 business days of receiving the request from the owner. The owner will be notified of the determination in writing.

All rents adjustments will be effective the first of the month following 60 days after the PHA's receipt of the owner's request or on the date specified by the owner, whichever is later.

PHA and HUD-Initiated Rent Reasonableness Determinations

HUD requires the PHA to make a determination of rent reasonableness (even if the owner has not requested a change) if there is a 10 percent decrease in the fair market rent that goes into effect at least 60 days before the contract anniversary date. HUD also may direct the PHA to make a determination at any other time. The PHA may decide that a new determination of rent reasonableness is needed at any time.

PHA Policy

In addition to the instances described above, the PHA will make a determination of rent reasonableness at any time after the initial occupancy period if: (1) the PHA determines that the initial rent reasonableness determination was in error or (2) the PHA determines that the information provided by the owner about the unit or other units on the same premises was incorrect.

LIHTC and HOME-Assisted Units [24 CFR 982.507(c)]

For units receiving low-income housing tax credits (LIHTCs) or units assisted under HUD's HOME Investment Partnerships (HOME) Program, a rent comparison with unassisted units is not required if the voucher rent does not exceed the rent for other LIHTC- or HOME-assisted units in the project that are not occupied by families with tenant-based assistance.

For LIHTCs, if the rent requested by the owner does exceed the LIHTC rents for non-voucher families, the PHA must perform a rent comparability study in accordance with program regulations. In such cases, the rent shall not exceed the lesser of: (1) the reasonable rent as determined from the rent comparability study; or (2) the payment standard established by the PHA for the unit size involved.

8-III.C. HOW COMPARABILITY IS ESTABLISHED

Factors to Consider

HUD requires PHAs to take into consideration the factors listed below when determining rent comparability. The PHA may use these factors to make upward or downward adjustments to the rents of comparison units when the units are not identical to the HCV-assisted unit.

- Location and age
- Unit size including the number of rooms and square footage of rooms
- The type of unit including construction type (e.g., single family, duplex, garden, low-rise, high-rise)
- The quality of the units including the quality of the original construction, maintenance and improvements made
- Amenities, services, and utilities included in the rent

Units that Must Not Be Used as Comparables

Comparable units must represent unrestricted market rents. Therefore, units that receive some form of federal, state, or local assistance that imposes rent restrictions cannot be considered comparable units. These include units assisted by HUD through any of the following programs: Section 8 project-based assistance, Section 236 and Section 221(d)(3) Below Market Interest Rate (BMIR) projects, HOME or Community Development Block Grant (CDBG) program-assisted units in which the rents are subsidized; units subsidized through federal, state, or local tax credits; units subsidized by the Department of Agriculture rural housing programs, and units that are rent-controlled by local ordinance [Notice PIH 2002-22, Notice PIH 2005-20, and Notice PIH 2020-19].

Note: Notice PIH 2020-19, issued August 21, 2020, provides further guidance on the issue of what constitutes an assisted unit.

Rents Charged for Other Units on the Premises

The Request for Tenancy Approval (HUD-52517) requires owners to provide information, on the form itself, about the rent charged for other unassisted comparable units on the premises if the premises include more than 4 units.

By accepting the PHA payment each month the owner certifies that the rent is not more than the rent charged for comparable unassisted units on the premises. If asked to do so, the owner must give the PHA information regarding rents charged for other units on the premises.

8-III.D. PHA RENT REASONABLENESS POLICY AND METHODOLOGY

How Market Data Is Collected

PHA Policy

The PHA will collect and maintain data on market rents in the PHA's jurisdiction. Information sources include newspapers, realtors, market surveys, inquiries of owners and other available sources. The data will be maintained by bedroom size and market areas. Market areas may be defined by zip codes, census tract, neighborhood, and identifiable natural or man-made boundaries. The data will be updated on an ongoing basis and rent information that is more than 12 months old will be eliminated from the database.

DETCOG will use AffordableHousing.com to conduct rent reasonableness assessments for both new and existing units. The system compares units based on a close geographic radius and excludes rent-controlled units when possible. This system also ensures the use of comparable units in location, size, type, age, amenities, and utilities included in the rent.

For all RFTA packets submitted on or after **October 1, 2025**, the following process will be used:

- The landlord must complete and submit a RFTA packet, including the new **Features and Amenities** form. This form collects details such as unit location, size, type, age, amenities, and utilities included in the rent.
- Upon receipt of a completed RFTA, **DETCOG will first determine if the tenant qualifies for the selected unit and if the initial rent burden is within acceptable limits.**
- If qualified, DETCOG will **schedule and conduct an inspection** of the unit.
- **The inspection must pass** before a rent reasonableness determination is conducted.
- Following a passed inspection, DETCOG will use **AffordableHousing.com** to select comparable units and to assess whether the proposed contract rent is reasonable based on comparable unassisted units in the market.

- If the contract rent is **not reasonable**, DETCOG will notify the landlord via the portal and provide the owner with the **maximum reasonable rent**.
- The landlord must reduce the proposed rent to meet the reasonable rent threshold before leasing can proceed.
- If the rent is **reasonable**, DETCOG will proceed with finalizing the lease and HAP contract.

The Request For Tenancy Approval Packet (RFTA) includes the required “Features and Amenities” form. All other timelines and documentation requirements remain unchanged.

Existing contract rents will remain unchanged until the owner requests a rent increase.

Rent Increase Requests

Landlords may request increases through the Landlord Portal (Finance tab) if:

- The tenant has lived in the unit for at least 12 months.
- The unit has a current passed inspection (within the last 24 months).
- If the requested rent exceeds the maximum reasonable rent, the contract rent will be reduced.
- Rent changes take effect on the later of: (1) the 1st of the month following 60 days after request receipt and tenant notification, or (2) the date specified by the owner.
- The new rent is the lesser of the requested rent or the maximum reasonable rent determined.
- Tenants cannot be charged more than the approved contract rent.
- DETCOG will provide documentation supporting any rent decrease.

Example:

Current Rent: \$1,000

Requested Rent: \$1,200

Rent Reasonableness Max: \$1,129

Approved New Rent: \$1,129

Landlords must notify tenants 60 days prior to proposed increases. DETCOG will provide written notice of the adjusted rent 30 days before implementation. Tenants must acknowledge the increase. If a tenant refuses, DETCOG will process the change and note the refusal.

Landlords may submit comparable units for review if they disagree with the rent reasonableness determination. DETCOG will submit these to AffordableHousing.com for validation. Appeal procedures are outlined in denial letters.

EXHIBIT 8-1: AFFIRMATIVE HABITABILITY REQUIREMENTS

Affirmative Habitability Requirements: Inside
--

Must include at least 1 battery-operated or hard-wired smoke detector, in proper working condition, on each level of the property.
--

Must meet or exceed the carbon monoxide detection standards set by the Secretary through <i>Federal Register</i> notification.
--

Any outlet installed within 6 feet of a water source must be GFCI protected.
--

Must have a guardrail when there is an elevated walking surface with a drop off of 30 inches or greater measured vertically.
--

Must have permanently mounted light fixtures in any kitchens and each bathroom.

May not contain unvented space heaters that burn gas, oil or kerosene.
--

Affirmative Habitability Requirements: Outside

Any outlet installed within 6 feet of a water source must be GFCI-protected.
--

Must have a guardrail when there is an elevated walking surface with a drop off of 30 inches or greater measured vertically.
--

Affirmative Habitability Requirements: Unit
Must have hot and cold running water in the bathroom and kitchen, including an adequate source of safe drinking water in the bathroom and kitchen.
Must include its own bathroom or sanitary facility that is in proper operating condition and usable in privacy. It must contain a sink, a bathtub or shower, and an interior flushable toilet.
<p>Must have at least one battery-operated or hard-wired smoke detector, in proper working condition, in the following locations:</p> <ul style="list-style-type: none"> • On each level of the unit AND • Inside each bedroom or sleeping area AND • With 21 feet of any door to a bedroom measured along a path of travel AND • Where a smoke detector is installed outside a bedroom is separated from an adjacent living area by a door, a smoke detector must also be installed in the living area side of the door.
If the unit is occupied by a hearing-impaired person, the smoke detectors must have an alarm system designed for hearing-impaired persons.
Must have a living room and a kitchen area with a sink, cooking appliance, refrigerator, food preparation area and food storage area.
Must have two working outlets or one working outlet and one permanent light fixture within all habitable rooms.
Must have a permanently mounted light fixture in each bathroom and in the kitchen.
Outlets within 6 feet of water source must be GFCI-protected.
Must have permanently installed heating source.
No units may contain unvented space heaters that burn gas, oil or kerosene.
Must have a guard rail when there is an elevated walking surface with a drop off of 30 inches or greater measured vertically.
Must have at least one bedroom or living/sleeping room for each two persons.
